

DECLARATION - CE MARKING

Tecnodeck has applied for an ETA – European Technical Approval, for the use of Tecnodeck boards on exterior flooring.

This request was made to LNEC – Laboratório Nacional de Engenharia Civil, member of the EOTA – European Organisation of Technical Approvals.

LNEC has subjected for approval to EOTA members a CUAP – Common Understanding Assessment Procedure “Terrace Decking Kit – CUAP 04.02/29”.

Attached is the declaration of LNEC, stating that the request is running and with the issue of the referred ETA, Tecnodeck will be allowed to use the CE marking of their mentioned products.

According to information given to us by LNEC, only one other European WPC manufacturer has applied for the same CE marking.

Lisbon, 19th of February of 2013
